NANO

Enjoy sun-tanning and rest in **NANO** exclusive cushioned sun deck (not often found on yachts of her size), with its own bar, offering an unobstructed 360 degrees view to discover the wonderful panorama of the Mediterranean coasts and islands in summer, or Caribbean ones during the winter season.

The upper deck, which can be open to the breeze or completely closed during a cold night, is the best place where to enjoy breakfast, lunch or dinner in privacy, or to have a party with its "L" shaped sofa, barbecue and enclosed pantry forward with a dumbwaiter to the galley below. A large flat screen DVD/VideoTV (with surround sound system and extensive collection of films) disappears into the pantry wall when not in use. Port and starboard teak clad stairs lead up to the flybridge steering position and up to the Sun deck.
